9. 10. Risk disclosure

10.1 Regarding the risks inherent in the different Financial Instruments in which the Bank may invest, the Client confirms that he/she has received, read, understood and accepted the content of the document entitled the "**MiFID Information Package – Part 2 of 2: Risk Disclosure**" provided by the Bank.

10.2 In addition to the knowledge and experience checks for the Client that are performed by the Bank via the collection of specific questionnaires, the Client confirms that he/she is familiar with and understands the functioning of the types of investment services and Financial Instruments and Financial Instrument classes mentioned under clause 4 of these DPMS Special Terms in particular those authorised under the Agreed Investment Strategy set out in the Investment Strategy Statement and/or such other investment strategy as the Bank and the Client may agree from time to time (including as agreed through the Bank's Electronic

Platform where applicable). The Client further confirms to understand and accept the risks inherent in such investments.

10.3 The Client confirms that in case Client is to increase the original amount invested in relation to the Portfolio Management Safekeeping Account (subject to the Client's Investor Profile and the applicable Agreed Investment Strategy with the Bank), he/she understands and accepts the risks and characteristics of the relevant Financial Instruments under the risk disclosure document referred to under 10.1, that the Bank has provided him/her, which covers all relevant information in relation to these Financial Instruments as well as the inherent risks thereto.

10.4 The Client is equally aware that past performances of any Financial Instrument or other investment or any asset class are not a guarantee of future performances.

10.5 The Client acknowledges and understands that, depending on the Agreed Investment Strategy chosen by the Client, a certain concentration or a large exposure on certain products or instruments may occur, in which case the risk of loss is increased.

10.6 The Client understands that the performance of the Client's managed Portfolio is not guaranteed and may result in significant losses to Client's invested capital.

10.7 The Bank may not be in a position to comply immediately with a Fund withdrawal request of the Client, due to the fact that the redemption of units in certain Funds may only occur at certain more or less lengthy time intervals.

10.8 The Client also recognises that the result of a management involving investment funds or other Funds is not only dependent on the ability of the Bank but also on the ability of the investment management company of the investment Fund.

10.9 Subject to the Client's Investor Profile and the applicable Agreed Investment Strategy with the Bank, the Bank may only invest in a very limited number of Financial Instruments or even in a single Financial Instrument. In this case, the diversification of investments shall be assessed at the level of the assets which have been securitised through such Financial Instruments.

11. Responsibility

11.1 Subject to the Bank complying with its obligations under the legal and regulatory framework applicable to the services within the scope of these DPMS Special Terms and the Agreement and subject to the Client's Investor Profile and the applicable Agreed Investment Strategy with the Bank, the Client bears the entire responsibility of the transactions that the Bank will enter into on his/her behalf within the framework of these DPMS Special Terms and the Agreement.

11.2 The Bank will assume no responsibility in relation to the management of the Financial Instruments except in case of gross negligence or willful misconduct. The Bank shall only be bound to use its reasonable endeavours in the management of the Financial Instruments. In particular, the Bank cannot be held liable for a possible depreciation of the value of the Portfolio, or for fluctuations in its yield, for a temporary over exposition of the Financial Instruments in relation to limits set out in the Agreed Investment Strategy set out in the Investment Strategy Statement [and/or such other applicable Agreed Investment Strategy as the Bank and the Client may agree from time to time (including slippage)] due to the fluctuations in the markets or for the consequences of errors of judgment when selecting investments, or for a loss of opportunity at the level of the Client.

11.3 The Bank will furthermore assume no responsibility for possible losses by the Client due to a change in the Agreed Investment Strategy set out in the Investment Strategy Statement (and/or such other applicable Agreed Investment Strategy as the Bank and the Client may agree from time to time, including through the Bank's Electronic Platform where applicable) before the term of the investment horizon determined by the Client, premature partial or entire withdrawals of Financial Instruments or termination of the Agreement prior to the agreed time horizon.

11.4 In any case, the Bank shall bear no responsibility for the consequences of events beyond its control such as force majeure, including a war, a riot, measures taken by public or foreign authorities or consequences of changes to the laws of Cyprus or of foreign countries.

11.5 Furthermore, the Bank is not liable for the correctness of information received from third parties and on which it relies for the management of the Portfolio.

12. Valuation

In computing the market value of any investment on the Portfolio, each Financial Instrument listed on any national securities exchanges shall be valued at the last quoted trade price (at closing) on the valuation date on the principal exchange on which such Financial Instrument is traded as listed in the relevant systems that provide such information. Any other Financial Instrument or asset shall be valued in a manner determined in good faith by the Bank to reflect its fair market value.

The Bank will evaluate the performance of the Client's portfolio at least every quarter (or every month at Bank's discretion).

13. Benchmark

In the course of providing portfolio management services, the Bank has established an appropriate method of evaluation and comparison such as a meaningful benchmark based on the investment objectives of the Client and the types of Financial Instruments included in the Portfolio, so as to enable the Client for whom the service is provided to assess the Bank's performance. The Bank will provide the Clients with a comparison of their portfolio with the performance of a benchmark.

14. Costs and commissions

In consideration for carrying out these DPMS Special Terms the Bank may charge, in addition to any applicable fees described on the agreed Fee Schedule under the General Investment Terms, such management fees as shall be applicable in accordance with its scales of charges, as set out in the document in the form of Appendix B of Annex A (**Fees Document**) (and as they may be amended from time to time, by relevant notification to the Client).

15. Account reporting

15.1 The Bank shall value the Financial Instruments every business day (being a day which is not a Saturday, Sunday or bank holiday in the Republic of Cyprus) on the basis of the market values, the rates provided by professional suppliers for financial information or the net asset value provided by the relevant Funds. The Client is aware that certain Funds provide their net asset value only at certain more or less lengthy intervals (e.g., 1, 3, 6 months) and that the stock exchange rates may not reflect the real value of Financial Instruments characterised by a low liquidity. The Bank will not be held responsible for inaccurate financial information provided by any of the aforementioned sources.

15.2 The Bank will address to the Client transactions reports and portfolio valuations as well as a periodic statement in a durable medium of the portfolio management activities carried out on behalf on the Client on a quarterly basis or monthly if deemed required to meet regulatory obligations of the Bank or based on Bank's business decision, except -

- (c) in cases where clause 15.4 applies, the periodic statement must be provided at least once every 12 months.

15.3 The periodic statement provides a fair and balanced review of the activities undertaken and of the performance of the Portfolio during the reporting period and includes the following information:

- (a) the name of the Bank;
- (b) the name or other designation of the Client's Portfolio Management Safekeeping Account;
- (c) a statement of the contents and the valuation of the Portfolio, including details of each Financial Instrument held, its market value, or fair value if market value is unavailable and the cash balance at the beginning and at the end of the reporting period, and the performance of the portfolio during the reporting period;
- (d) the total amount of fees and charges incurred during the reporting period, itemising at least total management fees and total costs associated with execution, and including, where relevant, a statement that a more detailed breakdown will be provided on request;
- (e) a comparison of performance during the period covered by the statement with the investment performance benchmark (if any) agreed between the Bank and the Client;
- (f) the total amount of dividends, interest and other payments received during the reporting period in relation to the Client's Portfolio;

15.4 The Bank, in cases where the Client elects to receive information about executed transactions on a transaction-by-transaction basis, provides promptly to the Client, on the execution of a transaction by the portfolio manager, the essential information concerning that transaction in a durable medium.

15.4.1 The Bank, no later than the first business day following that execution or, where the confirmation is received by the Bank from a third party, no later than the first business day following receipt of the confirmation from the third party, sends the Client a notice confirming the transaction and containing the following information:

Where the average price is provided, the Bank supplies the Client with information about the price of each tranche upon request.

15.5 The Bank shall inform the Client where the overall value of the Portfolio, as evaluated at the beginning of each reporting period, depreciates by 10%, and thereafter at multiples of 10%, at the latest at the end of the Business Day during which the threshold has been exceeded or, in a case where the threshold is exceeded on a non-Business Day, the end of the next Business Day. As regards the relevant reporting to the Client, the Bank will not be required to inform the Client in case such depreciations are due to cash or Financial Instruments and/or other assets withdrawals from the Portfolio Management Safekeeping Account(s).

Each year, the Bank shall provide the Client with information on all aggregated costs and charges pertaining to the investment services within the framework of these DPMS Special Terms and the Agreement. The Client may request an itemised breakdown.

15.6 The Client shall inform the Bank without delay of any errors, divergences and irregularities that appear on the account statements, transaction reports, portfolio valuations or the documents informing the Client of a loss of value of his/her initial portfolio, as well as of any delay or omission in the sending of documents. **If no written objection is received from the Client within thirty (30) calendar days** after the aforementioned documents have been sent or made available to the Client, **all transactions mentioned therein will be deemed to have been accepted and ratified by the Client** and the transactions mentioned therein may no longer be

16. Sustainability in Investment Services

16.1 The Bank, in the course of providing of portfolio management, promotes sustainable services as described under the Bank's Sustainability Risk Policy for Investment Services and Activities, as published on the Bank's website (<https://www.eurobank.com.cy/en-us/laws-regulations/mifid>). Taking into account environmental, social and corporate governance criteria (ESG criteria), the Bank implements a sustainable approach within the different asset classes of Financial Instruments and other assets that may be subject to ESG criteria held in the Portfolio. In order to mitigate principal adverse impacts into investment decisions, during the due diligence process, the Bank, in the course of providing portfolio management services, relies on third party data providers regarding the ESG scoring of securities, which it assesses in implementing its own approach and or proprietary extra financial rating methodology for each Financial Instrument class, based on the specificities of the Financial Instruments and their issuers.

16.2 The Bank discloses on its website (<https://www.eurobank.com.cy/en-us/laws-regulations/mifid>), relevant disclosures in respect of the ESG regulatory obligations and may provide any additional information upon request from the Client.

Also the Bank shall gradually disclose, either via the Bank's Electronic Platform or on its website additional

ESG information that is required to meet relevant regulatory requirements, such as:

- a) a description of the environmental or social characteristics or the sustainable investment objectives;
- (b) information on the methodologies used to assess, measure and monitor the environmental or social characteristics or the impact of the sustainable investments selected for the financial Instrument, including its data sources, screening criteria for the underlying assets and the relevant sustainability indicators used to measure the environmental or social characteristics or the overall sustainable impact of the Financial Instrument;
- (c) the information referred to in Articles 8 and 9 of the Sustainable Finance Disclosure Regulation (SFDR) namely -
- (d) where the Financial Instrument promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, information on how those characteristics are met;
- (e) if an index has been designated as a reference benchmark, information on whether and how this index is consistent with those characteristics;
- (f) where the Financial Instrument has sustainable investment as its objective and an index has been designated as a reference benchmark: (i) information on how the designated index is aligned with that objective; (ii) an explanation as to why and how the designated index aligned with that objective differs from a broad market index.
- (g) the information referred to in Article 11 of the SFDR.

17. Investment strategy

17.1 The Agreed Investment Strategy chosen by the Client is as specified in the Investment Strategy Statement and it is subject to updating with any such other applicable investment strategy – revised Agreed Investment Strategy - as the Bank and the Client may agree from time to time including via the Bank's Electronic Platform where applicable), depending on the respective selection list from the Available Investment Strategies of the Bank set out in the Investment Strategy Statement. In case of need for change in the applicable Agreed Investment Strategy, the Client would be required to:

- agree in writing (or such other appropriate means as the Bank may allow) a new version of the Investment Strategy Statement if the Agreed Investment Strategy information were to change in any way, or
- select a revised Agreed Investment Strategy via Client's dedicated access on the relevant Bank's Electronic Platform (where applicable).

17.2 The Agreed Investment Strategy chosen via the Investment Strategy Statement (and/or such other applicable Agreed Investment Strategy as the Bank and the Client may agree from time to time including via the Bank's Electronic Platform where applicable) only constitutes an objective. No guarantee may be given that these objectives shall be achieved. The Client is aware that, notwithstanding the chosen applicable Agreed Investment Strategy, losses may occur for example in case of negative market fluctuations.

17.3 Subject to the Bank complying with its obligations under the legal and regulatory framework applicable to the services within the scope of these DPMS Special Terms and the Agreement and subject to the Client's Investor Profile, the Client may, at any time during the course of the management of Client's Financial Instruments and other Client's assets and/or investments held in the Portfolio, and subject to the Bank's approval, opt for a revised Agreed Investment Strategy other than that referred to in the Investment Strategy Statement to apply to all or an agreed portion of the Financial Instruments and other assets held in the Portfolio (provided that the Bank, at its absolute discretion, agrees on any partial transfer out from an existing Discretionary Management Safekeeping Account to a new one, due to the level of minimum assets/instruments that is required to remain at any time in an existing Portfolio based on its Agreed Investment Strategy). This new investment strategy (revised Agreed Investment Strategy) shall replace the existing strategy referred to hereabove, in whole or in part (as may be agreed between the Bank and the Client). The Bank will charge to the Client an additional cost and commission related to this change as per the fee applicable per the Fee Schedule under the Bank's General Investment Terms and/or under the Fee Document (the Client is to be notified in advance on the applicable fee on such request).

17.4 Considering the aforementioned, the Client is also aware that any amendment to the originally Agreed Investment Strategy set out in the Investment Strategy Statement with such other investment strategy, as the Bank and the Client may agree from time to time during the course of the Agreement, might have a negative impact on the objectives pursued by the Bank in the context of this originally Agreed Investment Strategy, since these objectives may only be achieved, as a matter of principle, within the time-frame applicable to the originally Agreed Investment Strategy applied by the Bank.

17.5 The minimal thresholds that are required to be met, as defined in the applicable Agreed Investment Strategy,

shall only be indicative. The Client further acknowledges that due to market fluctuations the thresholds agreed upon in the Agreed Investment Strategy set out in the Investment Strategy Statement and/or such other applicable Agreed Investment Strategy as the Bank and the Client may agree from time to time- by asset class type of Financial Instruments (and/or other assets held in the Portfolio), may temporarily be exceeded.

17.6 The Client confirms that he/she is aware that all investments in shares or units of Funds imply automatically the holding of shares or units in which such Funds invest (being the underlying investments in such Funds), notwithstanding any applicable Agreed Investment Strategy chosen by the Client.

For the purposes of the asset allocation thresholds of the applicable Agreed Investment Strategy the Bank considers the main asset classification of the fund as a whole (e.g. Equity Fund, Bond Fund etc.) and not the separate securities/assets in which the Fund invests.

18. Outsourcing

18.1. The Bank is hereby empowered to outsource all or part of its management duties under these Special Terms **entirely or in part to another authorised investment firm (outsourcing CIF entity)** in Cyprus or abroad, **including but not limited** to its affiliated company **‘Eurobank Asset Management MFMC’** (being a wholly owned subsidiary of Eurobank SA). In case of outsourcing, the Bank shall be liable for the selection of the authorized investment firm which shall be the outsourcing CIF entity of the Bank, for its monitoring per Bank’s outsourcing policy, as well as for providing it with full information given to it regarding the content of the mandate (Special guidelines/mandate from the Client to the Bank for the management of the Portfolio) and the Client’s Investor Profile. The outsourcing CIF entity shall comply with the requirements on suitability during the orders processing and the investment decisions, to ensure they shall be suitable to the Client’s Investor Profile. The Bank however shall not be liable for the acts and/or omissions of the outsourcing CIF entity (unless the Bank has been negligent in appointing that third party).

18.2. The Client is informed via the Bank’s **MIFID Information Package** (available on Bank’s website, at <https://www.eurobank.com.cy/en-us/laws-regulations/mifid>), on the aforesaid outsourcing and/or delegation agreements in place by the Bank with such authorized investment firms – alternatively the counterparty chosen to act as portfolio manager will be as designated in the Agreement. The Client shall be duly notified via a durable medium prior to any significant

change relating to the outsourcing and/or the delegation of the management of the Portfolio. In case the Client shall object to the substitution, he/she may terminate the Agreement by giving a one month notice in writing in accordance with paragraph 20 below. Otherwise, the Client shall be deemed to have accepted the substitution and assignment, in such case, the relevant third party will be required to comply with the Client’s applicable Agreed Investment Strategy.

19. Main Decision Maker

19.1 The Client agrees that the provisions of paragraph 5.27 of the General Investment Terms apply in the case where the Portfolio Management Safekeeping Account is held by a group of two or more natural persons (being co-holders of the Portfolio Management Safekeeping Account) or where the Client is a legal entity.

19.2 Unless the Client notifies the Bank otherwise in writing, it represents to the Bank that it acknowledges and agrees to the impact of the provisions of this clause 19 and paragraph 5.27 of the General Investment Terms on its respective interests.

20. Duration – Termination of the Agreement – Amendment of these DPMS Special Terms

20.1 The Agreement is concluded for an undetermined period of time. Each party may freely terminate the Agreement by giving one (1) month’s written notice to the other party in accordance with clause 20.3 below. Outstanding transactions will not be affected by the termination of the Agreement.

20.2 In case of Portfolios held jointly, each Client may terminate the Agreement individually and this termination will be enforceable against all the holders of the Portfolio.

20.3 The termination of the Agreement has to be notified to the Bank by registered mail (the Bank at its discretion may accept such termination notification by email subject to its internal procedures). **The closure of the Portfolio Management Safekeeping Account held with the Bank, being a Safekeeping Account as provided in the Bank’s document titled General Investment Terms, leads to an automatic termination of the Agreement with no further formalities.**

20.4 The Agreement will terminate once the Bank has been informed, in writing, of the death of the Client. In such event, the Bank’s only obligation will be to render a statement of account to the latest address of the Client unless otherwise agreed.

20.5 In case of termination of the Agreement for any reason whatsoever, the Client or his successors shall submit instructions to the Bank regarding the liquidation or the transfer of the Financial Instruments and other assets held in the Portfolio, within a period of one (1) month from the termination. The Portfolio of the Client will not be managed during this period of time (with the exception of outstanding transactions), except for mere conservation and administrative measures until the liquidation of the Financial Instruments and/or other assets held in the Portfolio or their transfer to another account and/or Safekeeping Account with the Bank or with another bank specified in an instruction of the Client or his/her successors. If no appropriate instruction is received by the Bank within this period of time, the Bank may, without being obliged to, liquidate all the Financial Instruments in the Portfolio and transfer them in a non-interest bearing safekeeping account in Euro.

20.6 The Client is aware that a termination of the Agreement or a withdrawal of the Financial Instruments and/or any other investments and or assets held under the Portfolio, before the term of the relevant investment horizon may have a negative impact on the relevant Agreed Investment Strategy and may entail negative financial consequences for the Client.

20.7 The Bank may also, at any time and for serious reasons, revoke the Agreement as stipulated under this article 20. In this case, all the liabilities of the Client vis-à-vis the Bank will become immediately due and payable.

20.8 The Bank reserves the right to amend in whole or in part any of the provisions of these DPMS Special Terms Agreement including provisions regarding the remuneration and fees.

In particular in the event of changes in the legal and regulatory framework of the banking sector, changes to banking practices or changes affecting the conditions on the financial markets, the Bank reserves the right at any time to amend and/or to add new provisions to these DPMS Special Terms. Should the Bank intend to amend and/or to add new provisions to these DPMS Special Terms governing the relationship with the Client, the Bank will immediately inform the Client indicating the paragraphs it intends to modify or add as well as the content of these amendments or additions. If such amendments or additions are communicated to the Client via the internet website of the Bank and if required

by law, the Client will be informed electronically about the internet website address and the place on the internet website where the information may be accessed. Nonetheless, the Bank reserves the right to provide the Client with such information also in a paper form.

20.9. The amendments or additions are deemed to be accepted by the Client if the latter has not lodged a written opposition with the Bank within 30 (thirty) calendar days of dispatch of such notification by the Bank. In case the Client wishes to oppose to such amendments, the Client is entitled to terminate the relationship created in accordance with the Agreement, with immediate effect.

21. Miscellaneous

In all other respects the General Terms for Investment Services of the Bank, as applicable from time to time, which the Client hereby confirms having received a copy, read and approved shall apply.

Without prejudice to the provisions of any other clause of these DPMS Special Terms, if the Portfolio is held jointly by several persons, the Bank will execute the instructions given by each holder individually unless otherwise agreed. The holders are, however, jointly and severally liable to the Bank even if the Bank has only acted upon the instruction of one holder. In case the Bank receives several contradictory instructions from the holders, the Bank may, without being obliged and for as long as these instructions have not been carried out, require the consent of all the holders before executing these instructions.

22. Applicable law and jurisdiction. These DPMS Special Terms and the Agreement shall be governed by and construed in accordance with the laws of Cyprus.

Any litigation regarding these DPMS Special Terms and the Agreement shall be of the exclusive competence of the courts of Cyprus, the jurisdiction of which the Client agrees upon irrevocably.

The Bank, however, reserves its rights to bring any action or proceeding at the place(s) of domicile of the Client or before any other competent court under ordinary rules of procedure, in particular according to the applicable jurisdiction rules of the relevant European regulation or applicable convention.
